**Bihar Skill Development Mission**

Welcome to the Language Laboratory at Dashrath Manjhi Institute of Labour & Employment Studies, Patna—a pioneering initiative under the Bihar Skill Development Mission (BSDM). Nestled in the heart of Bihar's vibrant capital, this state-of-the-art facility is dedicated to transforming the linguistic landscape for the youth of Bihar. In collaboration with HK School of Foreign Languages, Ahmedabad, we are launching a comprehensive blended learning program in candidates with essential linguistic abilities, fostering global employability and cultural connectivity through innovative, hybrid training methodologies that blend digital tools with interactive classroom experiences.

At the core of this endeavor lies the Bihar Skill Development Mission, a flagship initiative of the Government of Bihar established in 2010. BSDM's mission is to empower the state's youth by providing them with requisite skills training, thereby enhancing their employability and contributing to sustainable economic growth. With a vision to increase the capacity and capability of Bihar's skill ecosystem to deliver high-quality, industry-relevant training, BSDM focuses on creating a robust network of training centers across the state. Central to this vision is the aspiration to build a multilingual world, where Bihar's talented workforce can seamlessly engage with international opportunities. By prioritizing foreign language proficiency, BSDM addresses the growing demand for bilingual and multilingual professionals in sectors like international trade, tourism, diplomacy, and technology. This aligns with broader objectives such as monitoring employment generation in diverse sectors and facilitating skill programs that promote self-reliance and entrepreneurial spirit. Through initiatives like the Kushal Yuva Program, which targets youth aged 15-28, BSDM is bridging the gap between local talent and global markets, ensuring every Bihari candidate emerges not just skilled, but globally competitive.
